Terminology : The terminology used for describing motion pictures varies considerably between British and American English. In British usage, the name of the medium is film. The word movie is understood but seldom used.⁷⁸ Additionally, the pictures plural is used semi-frequently to refer to the place where movies are exhibited, while in American English this may be called the movies, but it is becoming outdated. In other countries, the place where movies are exhibited may be called a cinema or movie theatre. By contrast, in the United States, movie is the predominant form. Although the words film and movie are sometimes used interchangeably, film is more often used when considering artistic, theoretical, or technical aspects. The term movies more often refers to entertainment or commercial aspects, as where to go for fun evening on a date. For example, a book titled How to Understand a Film would probably be about the aesthetics or theory of film, while a book entitled Lets Go to the movies would probably be about the history of entertaining movies and blockbusters.

Trailer and teaser Main article: Film trailer Trailers or previews are advertisements for films that will be shown in 1 to 3 months at a cinema. Back in the early days of cinema, with theaters that had only one or two screens, only certain trailers were shown for the films that were going to be shown there. Later, when theaters added more screens or new theaters were built with a lot of screens, all different trailers were shown even if they werent going to play that film in that theater. Film studios realized that the more trailers that were shown even if it wasnt going to be shown in that particular theater the more patrons would go to a different theater to see the film when it came out. The term trailer comes from their having originally been shown at the end of a film program. That practice did not last long because patrons tended to leave the theater after the films ended, but the name has stuck. Trailers are now shown before the film or the A film in a double feature program begins. Film

trailers are also common on DVDs and Blu-ray Discs, as well as on the Internet and mobile devices. Trailers are created to be engaging and interesting for viewers. As a result, in the Internet era, viewers often seek out trailers to Watch them. Of the ten billion videos Watch ed online annually in 2008, film trailers ranked third, after news and user-created videos.¹² Teasers are a much shorter preview or advertisement that lasts only 10 to 30 seconds. Teasers are used to get patrons excited about a film coming out in the next six to twelve months. Teasers may be produced even before the film production is completed.

Streaming services The BBC noted that the popularity of streaming services could increase, especially if more people are isolated at home,⁸⁵ with The Guardian suggesting that non-blockbuster films may be sent to streaming more quickly than anticipated after release, to catch this market.⁷ One popular film to stream was 2011s Contagion, which moved up from being the 270th most-Watch ed Warner Bros. film in December 2019 to become its 2nd most-Watch ed film in 2020 by March⁷²¹⁸ and entered the top 10 on iTunes film rentals,²¹⁹ ostensibly due to the similarities its story bears to the outbreak.⁷²¹⁸²¹⁹ The stock of increased in 2020 by March 12. The platform had released its original docuseries Pandemic: How to Prevent an Outbreak at the end of January 2020.⁸¹ Disney+ went live in India on March 11 via its domestic service Hotstar, eighteen days before it was set to, though Disneys shares had fallen by 23% on March 9.⁸¹
